# About | Seaglaze

Seaglaze Marine Windows is the UK leader in delivering quality, specialist and bespoke marine windows.

As a result of over 50 years of delivering marine glazing products, Seaglaze's windows, doors and hatches are now the first choice of many of Europe's leading leisure marine boat builders and owners, primarily due to their superior build quality and reliability.

## Family Run British Business

Founded in 1970, Seaglaze is a second-generation family business, committed to British manufacturing.

Seaglaze occupies a custom-built, modern factory in Norwich, UK, together with its sister company, Specialist Toughened Glass, which has its own glass toughening facility, featuring the latest 3D technology and its own award-winning IT system, delivering the ultimate in service and product.

The business produces complex, bespoke and curved glass on demand and cost effectively, for the marine and architectural sectors.

## Dedicated and Experienced Team

Seaglaze's 40-strong experienced and dedicated permanent staff are committed to the manufacture of high quality, yet affordable products.

This has resulted in the business boasting a regular client list of prestigious boat builders as well as private owners.

## Working alongside Owners Associations

Seaglaze builds and patterns most marine windows available today, working closely with numerous Owner Associations, which helps Seaglaze product development and reduces costs.

Expert | Quality | Innovation

## The Seaglaze Difference

- Seaglaze is the leading provider of marine glazing to the UK boating sector.
- Visit [www.seaglaze.co.uk](http://www.seaglaze.co.uk) to view the entire product range and download templates.
- The experienced sales team provides helpful and expert advice and assistance, guiding you through the process from start to finish.
- An optional bespoke measuring service is available, ensuring correct patterning and accuracy.
- Hardboard templates and sample extrusions ensure that the product matches the requirements and budget, and avoids costly errors.
- How-To Guides and Fitting Instructions are provided to help with installation and corrosion prevention.
- The team sends regular production progress updates to assist with the glazing dovetailing with your project.
- Aftercare advice and a comprehensive Spare Parts Catalogue is available for the lifetime of the product.

## Specialist Bespoke Marine Glazing

Seaglaze is renowned for its ability to create unique designs, offering a range of unique extrusions and processes to precisely match colours, styles and tints that suit all pockets, look superb and are safe.

## Did you know?

### Seaglaze manufactures its own glass

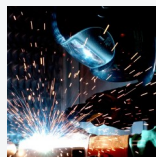

Part of the Seaglaze Group, Specialist Toughened Glass, delivers its sister company, Seaglaze, with a dedicated, high-quality, quick turnaround glass manufacturing service. A host of glass types are offered; from ballistic, through to stepped, double glazed units.

### Seaglaze produces c. 100 glass windows, hatches and doors each week

Employing dozens of engineers in production across two factories Seaglaze has the depth of manpower to ensure that your windows receive the care and attention that they need, no matter how specialised the order.

### Seaglaze continually innovates and invests

The Seaglaze Group also has one of the UK's most advanced digital glass printers in its field; reducing lead times and costs, whilst enhancing output quality. Seaglaze has invested in its own powder coat plant, enabling full production control and top quality products.

### All Seaglaze frames are anodised, even the powder coated ones

Gone are the days of fading anodised colours, or bubbling powder coatings. By combining anodising's great corrosion prevention with powder coating's impressive aesthetics provides a superior product, achieved through careful production and stringent stock control.

### Seaglaze products are British designed and built

All Seaglaze glazing is British designed and made in purpose-built facilities in Norwich. Seaglaze is also a proud member of British Marine and upholds their standards of conduct, and recognises the importance of active participation in our wider industry.

### Seaglaze offers a rapid replacement service

In the event of a window breakage, Seaglaze customers benefit from the fast-tracked rapid glazing replacement service. Fees and conditions apply.

## Next Steps

**Explore** Take a look at Seaglaze's new website & download the Buyers Guide, which has FAQs and will clarify the process.

**Enquire** Provide a brief overview of what you require to [sales@seaglaze.co.uk](mailto:sales@seaglaze.co.uk); such as a replacement window, spare parts, or a new set of window aesthetics such as concealed frames.

**Send** Forward the team some pictures of your boat from various angles – a picture paints a thousand words!

**Confirm** We will send you a proposal for your consideration. Be assured that we will never pressure sell to you and will always aim to work to your budget.

To discuss the benefits of Seaglaze marine windows, doors and hatches, please contact the Seaglaze team on tel +44(0) 1603 720745, email [sales@seaglaze.co.uk](mailto:sales@seaglaze.co.uk) or find out more at
