

## Seaglaze Marine Windows

### Hardy Owners Hatch

After nearly two years, a thorough re-design and test fittings with the help of the Hardy Owners Association, Seaglaze Marine are pleased to announce the new version of the Hardy Weather-tight Hatch for the Family Pilot.

This sleek design includes a dedicated anodised and powder coat finished shroud in White, which neatly covers the base frame and is shaped to match the topside camber of the coach roof.

It comes complete with 6mm Clear glass with one Oyster Stay which allows a greater angle of opening and a locking mechanism, with an additional gas strut which aids the soft opening and closing operation of the hatch when in use, and locking handles

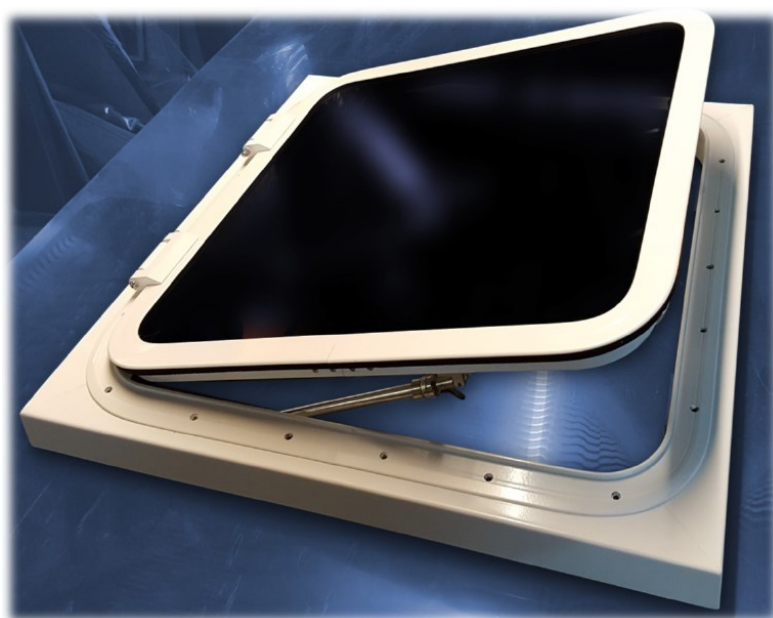

The Hatch is designed to have the hinges located on the forward end, which allows for gentle through ventilation of the cabin area.

Also included with the hatch is an Installation kit. This consists of;

2 x Black Arbo Tape,

1 x tube of Tef Gel

1 x Clear gap sealer,

We will be publishing more information on our Owners Association website at:

[www.marinewindows.com](http://www.marinewindows.com)

### All prices are subject to Carriage and Packing

The hatches are made to order and approximate lead time is 8 weeks.

We will be showing the Hatch at the various Boat Shows we will be attending in the coming months.

Seaglaze can be contacted on the above email or phone.
